Targeted Search 1.1

Relates To

TARGETED SEARCH

Targeted Search 1.1

Prompt

This release is a major feature release

Reference

Version	1.1
Release Date	2017-03-10
Major Release?	Yes
Compatibility with Confluence Server and Data Center	5.8.2 - 6.9.3
Download Link	download here

Highlights

- A new macro, "Label Select Field," displays applied filters and their groups for the current page. It also allows for multiple labels to be selected from the filter group. (SEARCH-430, SEARCH-412)
- We created a Search Results List macro (SEARCH-133)
- We've added the ability to center Targeted Search macros (SEARCH 476)
- Targeted Search Filters upload validation now reports which labels are failing (SEARCH-458)
- A new Content Query macro allows for more flexible searches than those using the Content by Label macro (SEARCH-453)
- We've added the ability to make filter groups collapsible on the Targeted Search results page (SEARCH-450)
    - Filter groups are now also collapsible on the labels applicator (SEARCH-422)
    - Filter groups are now also collapsible on the configuration screen (SEARCH-288)
- Selected filters on the Search Results page now appear under search terms (SEARCH-442)
- The product now allows searches to use filters to target space categories (SEARCH-424)
- We've updated the Filter Groups UI for choosing space categories (SEARCH-423)
- We've added the option to search the same space categories as the current space in the Search Field and Search Link macros (SEARCH-408)
- A Confluence Questions link has been added to Search Results (SEARCH-360)

- Targeted Search documentation to align macros (SEARCH-482)

- We've confirmed compatibility between Confluence Data Center and Targeted Search (SEARCH-406, SEARCH-358)
