Please note:

Theme Press 3.4.4 is a compatibility update and is recommended for all users of Theme Press.

Atlassian released a security vulnerability fix that broke all macros and templates in all BrikIt products.

This will affect all customers that upgrade to any of the Confluence versions listed as patches for the vulnerabilities announced on December 6. Theme Press 3.4.4 fixes this for all versions of Confluence earlier than 8.0.

Sites that use Theme Press for the global theme can become unusable as this issue affects the login screen. So please upgrade Theme Press BEFORE upgrading Confluence.
